WAKEMAN, OHIO

TRADE MARK

INTRODUCING
**BARDEN'S WONDER BANTAM
SWEET CORN**

ALL THAT THE NAME IMPLIES

Wakeman, Ohio.

Gentlemen:—

As growers of Seed Corn for the Seed Trade since 1878 we have found an ever increasing demand for an early sweet corn having all of the good qualities of Golden Bantam sweet corn, together with a larger ear and having about the same maturing season. To accomplish this our Mr. Barden undertook the task, and, after several years of careful crossing and selection, has obtained the desired results.

We now have enough of this choice selected seed from his cross of Early Wonder and Golden Bantam sweet corn to grow a good acreage for the Trade from crop 1923.

In order to test this variety for earliness, productiveness, and hardiness we have had trials made each year in the State of Vermont beside Golden Bantam and have found it more vigorous, productive and as early as the Bantam, having the marked advantage of having much larger ears set up higher on the stalk.

The stalks grow from five to six feet in height and have ears eight to ten inches in length filled with eight rows of rich golden colored kernels. It is a variety that will appeal to the critical Market and Home Gardener as well as the Canner who has been looking for a Bantam corn that will produce more tonnage per acre and at the same time not sacrifice its high quality.

We will gladly furnish you with electrotypes of this corn for your catalogue, as shown on this folder, free of charge, it being understood that the corn is to be sold under our Trade Mark, thus assuring your customers, from year to year, of true stock under our careful growth and selection.

The price of this new variety is per 100 pounds F. O. B. Wakeman, bags extra at cost. Place your order at once and assure yourself of your share of this choice Sweet Corn, also the big profits that are sure to come to you. Your order, or inquiry for other standard varieties is earnestly solicited.

Yours very truly,

C. S. CLARK & SONS.
